Tweet: [The unemployment rate is at or near a record low in half of American states.](#)

Summary: The unemployment rates in 25 states are currently at or within 0.1 percentage point of a record low [according to] Bureau of Labor Statistics data. In a dozen states and DC, the number of people on payrolls remains below pre-pandemic levels. That includes New York and Hawaii. Idaho, Utah, Texas, and Florida were among the states with the biggest gains in employment since February 2020.
