**Tweet:** The PLA used a social media post to announce the performance of its new anti-ship missile with a terminal speed of Mach 10, claiming the missile cannot be intercepted by any anti-missile weapons systems. @SCMPNews

**Summary:** For the first time, the PLA has officially revealed the performance of its advanced anti-ship hypersonic missile, sending a warning to the US amid high tensions in the Taiwan Strait, Chinese analysts said. China's YJ-21, or Eagle Strike-21, has a terminal speed of Mach 10, cannot be intercepted by any anti-missile weapons system in the world, and can launch lethal strikes toward enemy ships, according to an article posted by the official Weibo account of the People's Liberation Army Strategic Support Force.
