**Tweet:** With just under 24% of US GDP Florida, Texas, Georgia, the Carolinas, and Tennessee now have a greater share of the American economy than the Northeast with just over 22%.

**Summary:** Six fast-growing states in the South — Florida, Texas, Georgia, the Carolinas and Tennessee — are contributing more to the national GDP than the Northeast, with its Washington-New York-Boston corridor, in government figures going back to the 1990s. The Southeast accounted for more than two-thirds of all job growth across the US since early 2020, almost doubling its pre-pandemic share. And it was home to 10 of the 15 fastest-growing American large cities.
