**Summary:** A sustained exodus over the next few years will likely continue to drive Chinese property investments abroad. About 712,000 people from the country will migrate to the US, Canada, and Australia from 2023 to 2025, a report by real estate firm Juwai IQI's estimated. Capital flight from the mainland could reach \$150 billion this year, as more people park their money abroad for fear of additional measures at home.
