Tweet: 71% of American teenagers aged 13-17 visit Alphabet's YouTube daily, and 58% visit ByteDance's TikTok daily, with 17% of respondents saying they were on TikTok "Almost Constantly."

Summary: YouTube continues to dominate. Roughly nine-in-ten teens say they use YouTube, making it the most widely used platform measured in our survey. TikTok, Snapchat, and Instagram remain popular among teens: Majorities of teens ages 13 to 17 say they use TikTok (63%), Snapchat (60%), and Instagram (59%). For older teens ages 15 to 17, these shares are about seven-in-ten. Teens are less likely to be using Facebook and Twitter (recently renamed X) than they were a decade ago: Facebook once dominated the social media landscape among America's youth, but the share of teens who use the site has dropped from 71% in 2014-2015 to 33% today. Twitter, which was renamed X in July 2023, has also seen its teen user base shrink during the past decade – albeit at a less steep decline than Facebook.
