**Tweet:** 230,000 babies were born in South Korea in 2023 as fertility fell to .72 last year from .78 in 2022.

**Summary:** The number of babies expected per woman in a lifetime fell to 0.72 last year from 0.78 in 2022, according to data released Wednesday by South Korea's national statistics office. The number of births also slid by 7.7% to 230,000, setting a new low for comparable data in a nation of about 50 million people. In 2022 marriages fell to a new low. While some 192,500 couples tied the knot, that was down 42% from decade earlier, according to Statistics Korea.
