Tweet: China's National Bureau of Statistics confirmed that China's population dropped by 850,000 in 2022. With 9.56M births, the national birth rate fell to 6.77 per 1,000 people. @scmpeconomy

Summary: The National Bureau of Statistics confirmed on Tuesday that China's overall population dropped by 850,000 people to 1.4118 billion in 2022, down from 1.4126 billion a year earlier. The national birth rate fell to a record low of 6.77 for every 1,000 people as Chinese mothers had only 9.56 million babies – the nation's lowest total in modern history and the first time the figure fell below 10 million.
